

CSWC Operational Period Summary

0600 June 24 2014 to 1800 June 24 2014

Cal OES Headquarters

SITUATION SUMMARY

Brand Incident, Vegetation Fire, Los Angeles County (Update/Final)

- Location: Brand Park, City of Glendale, Los Angeles County
- Jurisdiction: LRA
- 150 Acres
- Significant demobilization of resources yesterday
- Minimal resources remain on scene for mop-up and patrol

Oak Incident, Vegetation Fire, Calaveras County (Update/Final)

- Location: California Oak Valley Road x Pool Station Road, Copperopolis, Calaveras County
- Jurisdiction: SRA
- Start Date/Time: 06/22/14 1237 hours
- 85 Acres, 90% contained
- Significant demobilization of resources yesterday and today
- 1 outbuilding destroyed

Significant Weather

- Red Flag Warning in effect from 1300 to 2300 Wednesday for areas in Alpine and Mono Counties

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

FIRE WEATHER

NORTHERN CALIFORNIA

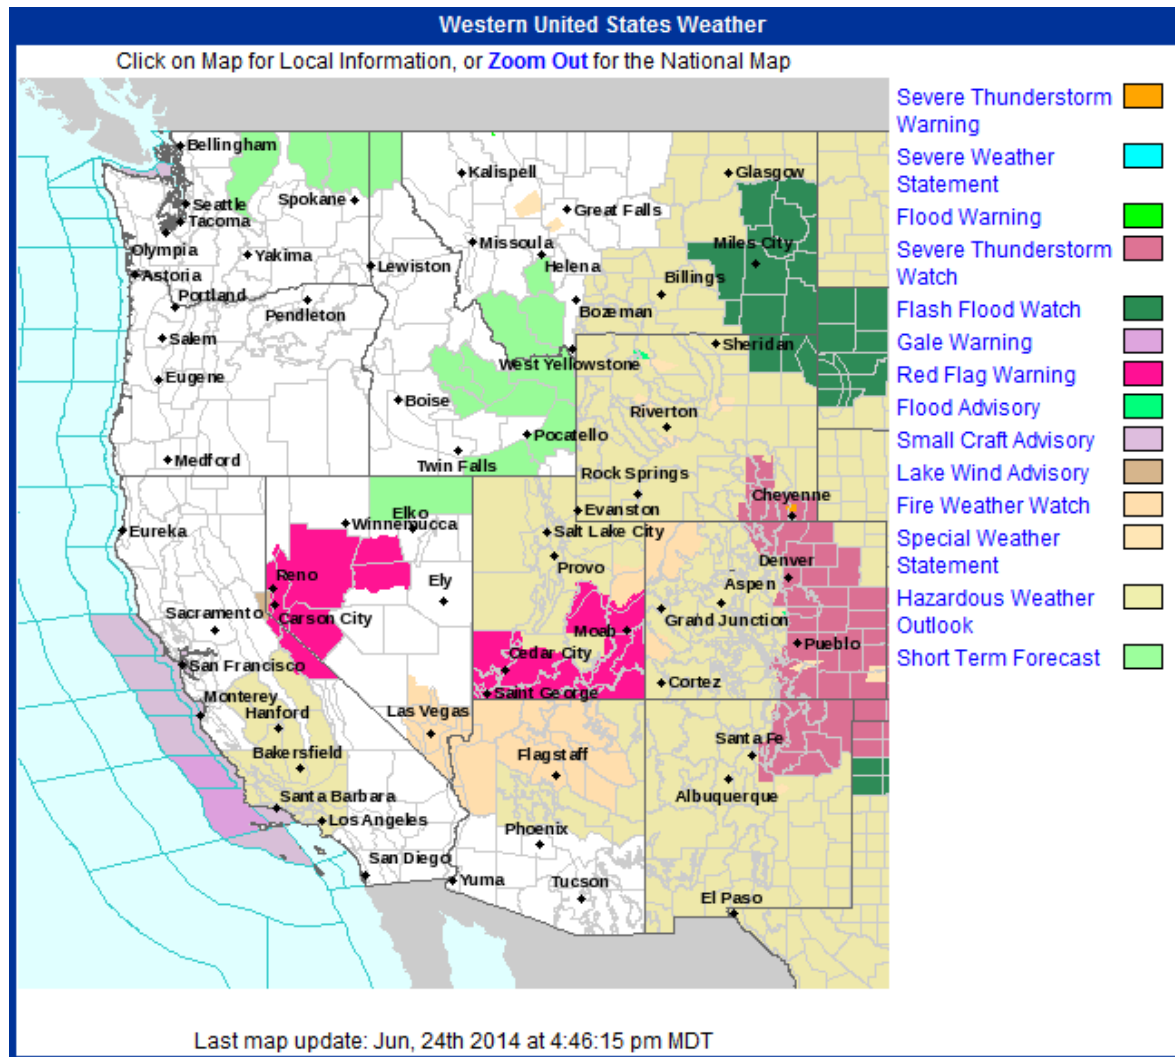

A very weak upper level disturbance crossed the north end of California Monday night, bringing some cumulus ahead of it but no thunderstorms. Today we are under weak high pressure, with a moderate west-south-west flow aloft. A stronger Pacific low pressure trough will swing into northern California tomorrow, bringing light precipitation to the far Northwest, where cloud cover and humidity increase soonest. However the east and southeast parts of the area will remain relatively dry, while seeing a substantial increase in southwest prefrontal gradient winds. Showers become more likely and over a larger share of the northern third of northern California Wednesday night into Thursday morning. Conditions remain fairly mild and skies unsettled on Friday, as a second much weaker system passes through, perhaps with a few more light showers in the far northwest. Look for a quick, strong rebuilding of high pressure aloft up from the south from Sunday into Monday night. Relative humidity (RH) will drop back to single digit minimums in the driest areas, and the air mass likely to reach new max temperatures for the year so far.

FIRE WEATHER

SOUTHERN CALIFORNIA:

An unseasonably deep trough heading into the Pacific Northwest will generate gusty winds over portions of the district Wednesday. But today, expect widespread marine layer stratus coverage this morning which will give way to hazy afternoon sunshine. Temperatures will continue to be near seasonal averages with highs in the 70s along the coast and in the mountains to the mid to upper 80s in the valleys. The San Joaquin Valley will continue to see high temperatures in the mid to upper 90s. There will be northwest winds of 15-25 mph with gusts approaching 30 mph along the central coast. In addition, west afternoon winds of 15-25 mph with gusts to 35 mph will be possible in and near the Antelope Valley and the Banning Pass. Wednesday, winds across the Sierra Crest may increase to 40 mph which will lead to gusty and erratic down sloping winds across Mono County by afternoon. Winds of 15-25 mph with infrequent gusts over 40 mph along with relative humidity (RH) around 10% will be possible from the eastern side of the Sierras into Mono County during the afternoon and evening hours Wednesday. Winds may also approach 40 mph across the Kern County Mountains into the central Mojave Desert Wednesday, but relative humidity (RH) should be slightly higher in these areas. Temperatures elsewhere will be a few degrees cooler, especially across central California. Lighter winds and slightly below normal temperatures along with extensive marine layer cloudiness can be expected Thursday. This weekend, high pressure will rebuild over the area, leading to a strong warming trend. High temperatures will be well into the 90s in the valleys over the weekend with the San Joaquin Valley and lower Sierra Foothills seeing maximum readings reach 105 by Sunday. Next week looks very hot at this point. Winds should be light Friday and into the weekend. No thunderstorms are expected during the period.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

CAL OES MISSIONS

New Cal OES Missions

- **2014-LAW-3934**, IERCC reports a SPOT activation in Fresno County. 60 year old female hiker activated her SPOT device but have been unable to contact her. Cal OES LDO coordinating resources. Update, 1433 hours: Victim transported but refused medical treatment. Mission **Closed**
- **2014-LAW-3930**, IERCC reports a SPOT activation in Tulare County. Device owner activated for his friend who was thrown from his horse yesterday and can't complete the 20 mile return trip. Cal OES LDO coordinating with Tulare County Sheriff's Department. Victim transported. Mission **Closed**

Ongoing Cal OES Missions

- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
